

One University. Endless Opportunities.

No two paths are the same at Northeastern University. You can start your academic journey on the East Coast, the West Coast, or across the Atlantic. No matter where you begin, you'll remain connected to our global community. Where will your journey take you?

Signature Programs

Northeastern University in Boston

Study on our Boston campus, which features state-of-the-art classrooms, groundbreaking research facilities, and 73 acres of green space. The city is brimming with experiential learning opportunities and serves as a global hub for academics, healthcare, and business, making it an ideal setting for living and learning.

Northeastern University in Oakland

Launch your academic journey in Oakland, one of America's most dynamic cities. Our Oakland campus offers cutting-edge degree programs and experiential opportunities to help students succeed in a rapidly changing world.

London Scholars

The London Scholars program at Northeastern's London campus offers first-year students a challenging academic environment in one of the most culturally vibrant cities in the world. London will be your

classroom with program excursions throughout the city and beyond. After spending your initial year in London, you'll study at Northeastern's Boston campus for your second year.

New York City Scholars

NYC Scholars begin their academic journey at Northeastern's New York City campus in Manhattan. You'll join a cohort of fellow first-year Northeastern students before transitioning to Northeastern's Boston campus for your second year. You will be in the heart of the Big Apple, opening the door for you to collaborate with industry experts across the five boroughs.

The N.U.in Program

The N.U.in Program is Northeastern's signature first-year fall semester experience—offering you an opportunity to begin your academic career at one of our various international partner institutions before transitioning to the Boston campus in January for the second semester.

Campus-Exclusive Offerings

British Degree Programmes, London

Get ready to immerse yourself in a vibrant culture in one of the most revered cities in the world. The London Undergraduate U.K. Degree Programme allows you to earn your U.K. degree in three years and gain experience beyond your years through co-ops.

Performing Arts (BFA/BA), New York City

In New York City, artistry meets opportunity. Building on Marymount Manhattan College's long-standing tradition of excellence in the performing arts, Northeastern's New York City campus prepares students for dynamic careers in the arts. Through rigorous conservatory-inspired training, experiential learning, professional mentorship, and interdisciplinary collaboration, students explore the intersection of creativity, technology, and performance while developing as forward-thinking artists and creative leaders.

Business Administration and International Business (BS), New York City

Shape the future of business in the heart of the Big Apple with an industry-first curriculum. Choose from concentrations like fashion marketing, media and arts management, investment banking, and investing.

Engineering Design (BS), Oakland

From day one, you'll work toward developing a comprehensive portfolio of work. The program is embedded with projects and an industry-first curriculum, focused on direct engagement with an engineering and design methodology of building, testing, iterating, and crafting solutions to challenges in the world.

Additional Program Opportunities

NU Immerse, Boston

NU Immerse is a distinctive first-year experience. The program provides academic and advanced English-language support to non-native English speakers as they start their university studies at Northeastern's Boston campus.

Foundation Year, Boston

The program ensures a smooth transition to university life. It enables students to maximize their potential through a robust academic curriculum, personalized advising, and a cohort model that fosters a tight-knit community.

"I don't want you to fit into a mold that I create. I want you to create your own journey."
